SUMMARY

I am an active student majoring in informatics at a national university in Indonesia. I have an interest in programming, I learned it through the internet. I am actively seeking opportunities to improve my skills and knowledge in web development and related technologies. I am proficient in using version control systems like Git for efficient code management and collaboration. I also possess knowledge of back-end development using the Laravel framework and working with MySQL databases. I also have experience in laravel to build a web that have to processing data from database and send it to Frontend. I am a quick learner and thrive in a collaborative work environment. I am eager to contribute to projects and enhance my skills as a web developer. I have a strong attention to detail and enjoy solving problems to deliver high-quality results.
